

2020 | 2021

# Advanced Courses (Update: May 18, 2021)

(Online events)

**Marine Island Biogeography: patterns and processes**

November 09-12, 2020

Application deadline: October 24, 2020

**Theoretical perspectives on biodiversity and biogeography (1<sup>st</sup> edition)**

November 23-27, 2020

Application deadline: November 02, 2020

**Gene prediction and annotation of whole genomes**

January 18-22, 2021

Application deadline: November 30, 2020

**Art & Design for Scientists**

February 01-05, 2021

Application deadline: December 14, 2020

**Quantitative estimation of wildlife population parameters I**

Postponed to next year

**Quantitative estimation of wildlife population parameters II**

Postponed to next year

**Conservation Project Management**

May 24-27, 2021

Application deadline: April 22, 2021

[How viruses work? Principles and methods for their study](#)

June 07-09, 2021

Application deadline: April 29, 2021

[Museum techniques in the 21<sup>st</sup> century](#)

June 16-18, 2021

Application deadline: June 11, 2021

[Theoretical perspectives on biodiversity and biogeography \(2<sup>nd</sup> edition\)](#)

June 28 - July 2, 2021

Application deadline: May 20, 2021

[Habitat Suitability Models using citizen science and social media data on invasive alien species](#)

July 06-09, 2021

Application deadline: May 27, 2021

**Vector Mediated Parasites & Wildlife**

July 12-16, 2021

More information available soon

[Remote sensing tools and applications to ecology, biodiversity and natural resources](#)

July 19-21, 2021

Application deadline: June 11, 2021
